

Klimatopmøde i København 2009

To mennesker, to ideer.

Hun vil bindende beslutninger i verdenssamfundet for mere klimabeskyttelse.

Connie Hedegaard (49) kommende EU-kommissær og præsident for klimatopmødet i København

Han vil bygge et kulkraftværk, uden kraftvarmekobling og med et CO₂-udslip på 10 millioner tons pr. år.

Anders Eldrup (61) administrerende direktør i energikoncernen DONG Energy, officiel partner for klimatopmødet.

**Connie, stop sin "klimapartner"
DONG Energys planer for et kulkraftværk
i Lubmin/Tyskland!**

Alliancen "Intet kulkraftværk i Lubmin"

består af græsrodsbevægelserne Lubmin, Usedom, Greifswald og Rügen samt Miljøorganisationerne BUND og WWF

Den energi, vi skal bruge til den fremtid, vi ønsker.

Two people, two ideas.

She wants obliging decisions of the world community for more climate protection.

Connie Hedegaard (49), designated EU climate commissioner and president of the Copenhagen Climate Change Conference.

He wants to build a coal-fired power plant in Germany working without combined heat and power (CHP). It will emit 10 million tons carbon dioxide per annum.

Anders Eldrup (61), chief executive officer of the Danish energy company DONG Energy, official partner of the Copenhagen Climate Change Conference.

Stop the plans of your danish "climate partner" DONG Energy, who would like to build a coal-fired power plant in Lubmin/ Germany, Mrs. Hedegaard!

Alliance "No coal-fired power plant Lubmin"

consisting of independent citizens' initiatives Lubmin, Usedom, Greifswald and Rügen and the environmental organizations BUND and WWF
